

Position Announcement: Field Engineer (Full-Time)

Location: Ocean Township, NJ (Hybrid position: field, office, and remote)

Date Available: ASAP

Organizational Overview: Renova Environmental Company is an employee-owned business with core competencies as a self-performing environmental remediation, restoration, and heavy civil construction firm supporting our clients since 2006. We employ an experienced team of project managers, construction experts, and environmental professionals.

Position Overview: The Field Engineer position offers a dynamic and self-motivated individual the unique opportunity to be part of a rapidly growing business in a rewarding field. The position offers a balance between field and office work and provides for a fulfilling experience in the environmental field in a fast-paced company with opportunities for advancement.

Key Responsibilities:

- **Office:**
 - Support project management and construction estimates
 - Report writing (e.g. Workplans, Health and Safety Plans, etc.)
 - Data management and site plan development
 - AutoCAD drawings
 - Project scheduling, logistics, and implementation
 - Develop knowledge of environmental and safety regulations
 - Interact with clients, subcontractors, regulatory officials, and industry professionals
 - Support overall business operations

- **Field:**
 - Support construction site superintendent
 - Oversight and management of subcontractors
 - Complete daily field logs and conduct daily safety briefings
 - Field quality control
 - Remedial action implementation and oversight
 - Remedial investigations of soil and groundwater via GeoProbe and hand auger
 - Project support and communication with project management

Compensation: \$62,500 to \$75,000; rate based on industry standard; commensurate with experience; industry-leading benefits package; automatic employee-ownership program

Qualifications:

- 0 to 5 years' experience
- B.S. or B.A. in Environmental or Civil Engineering, a Life Science, or Physical Science
- Excellent verbal, written, communication, and computer skills
- Safe driving record

To Apply: Qualified candidates should email a resume and cover letter describing experience and qualifications to careers@renovaenviro.com. More information is available at www.renovaenviro.com.
